About Neocortix, Inc.

Headquartered in Santa Clara, Calif., Neocortix was founded in 2013 with the mission to leverage the shared economy by building a supercomputer network out of personal cell phones. The company’s disruptive “Cloud at the Edge” technology benefits anyone who needs cloud services by eliminating the costs associated with big, expensive data centers. Solutions include PhonePaycheck, an Android app that pays users for the use of their smartphone while they are not using it, and Neocortix Cloud Services, a distributed Cloud Computing Service running on a worldwide network of mobile devices.
